## THE STATE LEGISLATURE.

MEASURES TAKEN UP AND LAID ASIDE. A TRIP TO THE MOUNTAINS SPOILED-THE ELEC-

TRICAL SUBWAY COMMISSION. [PROM THE RECULAR CORRESPONDENT OF THE TRIBUNE.]
ALBANY, May 13.—A few days ago Senator Raines
stated that the Forestry Commission had compromised a
\$50,000 claim against a woodsman who had invaded the State forest in the Adirondacks, for \$5,000. Senator Cogggshall to-day offered a resolution for the appoint-Cogggshall to-day offered a resolution for the appointment of a special committee to investigate the truth of this statement, the committee to take evidence the coming summer. The Senate suspected that the resolution covered a pleasant trip in July or August for a number of Senators who desired to visit the Adirondacks. It was known that Townsend Cox, one of the members of the Forestry Commission, had asked for an investigation of the conduct of the commission in the matter; but had asked that the investigation should be made before the adjournment of the Legislature. Senator Sloan moved that the resolution be referred to the Senate Finance aittee for a preliminary investigation. The motion

was adopted.

1 Police Commissioner [Croker, the head of Tan was adopted.

'Police Commissioner [Croker, the head of Tammany Hall, and Police Justice Power, the chief of the County Democracy, are firmly of the opinion that Controller Loew and Commissioner Newton should be added to the Board of Subway Electrical Commissioners of New York. They have given orders to the city Democrats in the Senate to propose an amendment putting Mr. Loew and Mr. Newton in the commission. They were also directed to fight the bill as it stands. Senator Daly moved to-day that the bill should be made a special order for consideration on Tuesday. Senator Murphy moved as an amendment that the bill should not be considered fill Thursday. Senator Daly expressed his astonishment that there should be a movement to delay the consideration of the measure, and said that he could not understand the action of Senator Murphy of any men who should support him. It was intended to kill the bill. Senator Murphy's motion was defeated by a vote of 7 to 12. The seven votes were given by Senator Cullen, Murphy, Nelson, Plunkitt, Raines, Traphagen and Wemple. Then the motion of Senator Daly was adopted.

and wemple. Then the motion of Senator Daly was adopted.
Senator Coggeshall also pushed a bill forward moving that Semator Smith's act providing for the erection of grain elevators by the State should be made a special order for consideration on Tuesday. Senator McMillan opposed the motion, saying that he objected to the Senate complying with suggestions from the lobby. Senator Coggeshall wrathfully replied that he was not acting for the lobby, but expressed the belief that there was a lobby opposing the measure. His motion was adopted.
Assemblyman Burns is finding it a difficult enterprise to pass his suburban rapid transit bill. To-day just as it was about to pass the Senate an attack was made upon it by Senator Rellly. He moved that the bill should be killed. Senators McMillan and Low defended the measure. Senator Pinnkitt moved that it be laid aside. In New-York the Senators from that city could get solid "information" about the bill. Therefore the bill was laid aside.

NEW LIFE IN THE CABLE ROAD SCHEME. THE BILL REVIVING IT PASSED BY THE SENATE-CHANCES IN THE ASSEMBLY.

CHANCES IN THE ASSEMBLY.

ALBANY, May 13.—The passage by the Senate last night of Senator Traphagen's bill reviving the New-York Cable Railway Company and its alleged right to seventy-bix miles of the streets of New-York was the sensation of the day in the Legislature. Will the bill pass the Assemblys. That is the question new saked. It has one heap bly! That is the question now asked. It has once been beaten in the Assembly and about fifty-seven Assembly-men will have to make a complete somersault for it to pass. The bill was killed in April 7 by a vote of 8 to 84. The names of the eighty-four gentlemen who then voted meaning the bill are given below for reference next week when the bill will come before the Assembly; Democrats

FEES FOR REGISTER SLEVIN.

ALBANY, May 13.—In both the Senate and the Assembly to-day Mr. Hamilton's bill increasing the fees of Register Blevin, of New-York, was passed. Mr. Hamilton inserted amendments making the Register liable at law for the amendments making the Register Hable at law for the accuracy of the three-day short searches and reducing the short searches from twenty days to fifteen days. The Register is authorized to receive extra fees amounting to the regular fee and an additional amount equal to half that fee.

GOVERNOR HILL TO GIVE A HEARING ON THE POOL BILL.

ALBANY, May 13.—Governor Hill signed to-day the bill introduced at the same time by Senator Murphy and Assemblyman Melntyre authorizing the Board of Estimate and Apportionment to buy land for small parks in the tenement-house district of New-York.

Assemblyman Ives's bill permitting the sale of pools

horse races reached the Governor. The sporting on horse races reached the Governor. The sporting men desire the Governor to act at once on the measure, but it is understood that he cannot do so, owing to the large number of bills of importance already in his hands. His time for considering the measure will expire upon May 25. On the 23d he will give a hearing on the bill.

NORTHERN PACIFIC INDEMNITY LANDS. WASHINGTON, May 13.—Colonel George Gray, of New-York, and W. K. Mendenhall, of this city, counsel for the Northern Pacific Railroad, will to-morrow have a conference with Secretary Lamar, with a view to an amicable and speedy adjustment of the Northern Pacific indemnity land question recently brought into prominence by President Cleveland's letter to the Secretary of the Interior in the Guilford Miller case. Colonel Gray said to-day that, while regretting the mistake of the President as to the facts in the Miller case, the Northern Pacific Company are entirely willing to submit to the conclusions arrived at. Colonel Gray said that his company has been arrived at. Colonel Gray said that his company has been at all times ready and willing to make its selections and release from withdrawal every acre to which it had not a clear legal title, and that Congress had obstructed the adjustment of the grant by its failure to appropriate sufficient sums for the survey of the lands in question. He added that the company had no dealer to disturb settlers within the indemnity limits who, in good faith, had entered upon the land for the purpose of making homes for themselves; that, on the contrary, their presence is desirable, and that their rights shall be fully protected and respected.

ASPIRANTS FOR THE SEAT OF JUSTICE WOODS. WASHINGTON, May 13 (Special).-The physician of Associate Justice Woods, of the Supreme Court, regards the recovery of his patient as hopeless, and as might be expected a rather lively canvass for the prospective vacancy is a'ready in progress. The report that Mr. Garland is to receive the appointment is industriously circuit. land is to receive the appointment is industriously circulated to night by people who, it is said, received the one from Editor and Biographer Dorsheimer. If the President should really have such an appointment under consideration it could only be the result of some pledges given to Mr. Gariand and ante-dating the telephone scandal. It may be assorted with little fear of contradiction that the appointment of Mr. Gariand would be viewed by the entire Supreme Bench with something very much aid to alarm, if not disgust. Among other possible candidates mentioned to night are ex-Speaker Carlisle, J. Bandolph Tucker and ex-Governor Hoadly.

ABOUT TWENTY PERSONS MADE ILL IN HARLEM-A

PUZZLING CASE.

Information that a number of persons had been poisoned by milk in Harlem was sent to the Sanitary Bareau on Thursday. Dr. Cyrus Edson visited a number of the patients that evening, and was at work all day yesterday trying to clear up the matter. Some twenty persons had been made seriously ill but all had recovered except two

Charles H. Hinek has a milk depot in Fourth-ave, near One-hundred-and-eleventh-st., and delivers milk in cans to grocers and bakers. His milk comes from the farm of W. J. Robinson at Towners, N. Y. Or nine cans received on Thursday morning only one had milk of bad quality. About half of that can was delivered at Merier's grocery, No. 1,990 Second-ave. Fifteen quarts were left at D. Callahan's grocery, No. 311 East One-hundred and-fourth-st. Hinek added five quarts from nother can to the five quarts that remained and delivered ten quarts at Bremmer's bakery in One-hundred and twenty-first-st. east of Third-ave. All the milk was delivered soon after 5 a, m. About four hours later Mrs. Meeker was taken ill; and Dr. Richard, of East One-hundred-and-twenty-seventh-st., found that Mrs. Meeker had inflammation of the stomach and bowels. Hinck drank a little of the milk in 'Meeker's place; he vomited freely and had severe pains in his stomach. Meeker also tasted the milk and he was troubled with vomiting and pain in the evening. Mrs. Petersen, wife of a wine merchant who lived in the same house with the Meekers, bought milk in the grocery and was sick. John and Katie Smith, children on the second floor, were prostrated after eating bread and milk. Max Blumenthal and his wife were both ill. John A. Smith, his wife and three children on the third floor, suffered for hours after breakfast. Mrs. McEntee and her two daughters drank the milk in the morning. All three wore sick before noon. John Hollannell, on the top floor, was the 'only member of his family who used the milk that morning. He returned home from his work before noon and kept his bed all the rest of the day. All those in the house who had not tasted milk or who had not bought milk at the grocery, was also taken sick.

### GAS ESCAPING IN THEIR ROOMS.

THE MORTON HOUSE—AN ENGLISHMAN DEAD.

Miss Mary Cottrell, of Newark, narrowly escaped death by suffocation on Thursday evening. She came to this city to go to a theatre with some friends, and took a roun at the Morton House. Before she went to bed she turned the gas jet down low and lowered the window a few inches. While she was asleep the wind blew out the flame and the gas escaped in sufficient quantity to make flame and the gas escaped in sufficient quantity to make her insensible. Mr. Ames, a coarder at the hotel, passed her room on the way to his own about 5 a. m. yesterday and smelled the escaping gas. He knocked at the door and then went to his own room. After he had partiy undressed it occurred to him that he ought to make sure that no one was being suffocated, and he went back to Miss Cottrell's room and knocked again. There was no reply, and Mr. Ames climbed through the transom. He broke the glass and cut his hand and foot slightly before he could get maide. Miss Cottrell was still insensible when she was carried to the St. Vincent's Hoapital, but she recovered later and was able to go home in the evening.

James Stead, an English bricklayer, age flifty-two, was found dead in his room in Mrs. Sophia Wagner's boarding-house, No. 168 West One-hundredth-st., yesterday morning, having been suffocated by gas which he permitted to escape in the room. He had occupied the room several weeks and was drunk on Thursday night. He had money in two or three savings banks.

The commission to determine the necessity of a bridge or tunnel to connect New-York and Brooklyn in the st. met again in the Mayor's office vicinity of Grand-st. met again in the Mayor's office vesterday. There were present the two Mayors, the two Corporation Counsels, General Newton and Chief Engineer Van Buren, of Brooklyn. Many prominent residents of the Eastern District of Brooklyn were on hand to advocate the project. Demas Strong said that 300,000 residents of his part of Brooklyn were without the means of reaching New-York except by ferry. This was a sufficient argument that a bridge or tunnel was aboutly necessary. Albert G. McDonali, representing the Brooklyn Ferry Company, spoke in opposition to the Brooklyn Ferry Company, spoke in opposition to the Brooklyn Ferry Company, spoke in opposition to the that the ferries were sufficient and furnished better accommodation than a bridge or tunnel. If Brooklyn wanted to add \$15,000,000 or \$20,000,000 to its indeficiences the money could better be spent in improving the streets. Mr. Strong said that the ferries were overcrowded. The bridge or tunnel might be built by private onterprise.

crowded. The bridge or tunnel might be built by private enterprise.

Dr. Thomas Rainey, who is promoting the Blackwell's Island bridge, said that when this structure was completed there would be no necessity for the Grand-st. bridge, as his company contemplated an approach to its bridge extending to within half a mile of the Brooklyn City Hall, with stations at Hunter's Point, Long Island City, Calvary Cemetery, Bushwick Inlet, Broadway and the Navy Yard.

Isaac Ramber and J. W. Jones spoke in favor of the Grand-st. bridge, and John G. Jenkins, president of the First National Bank of Brooklyn, opposed it.

The commission voted in executive session. All the New-York members opposed the scheme and all the Brooklyn members favored it.

" THE DEATH OF MOZART" IN DETROIT. Munkacsy's picture "The Death of Mozart" is now in Detroit at the house of ex-Governor Alger, who bought Detroit at the house of ex-Governor Alger, who looked it a few days ago. The picture arrived here some weeks ago in the keeping of its owner, Mr. Sedelmeyer, and every attempt was made to keep its presence unknown. A number of well-known men of this city saw it with the intention of purchasing it, one of them avowing his intention, if he succeeded in buying it, of presenting it te the Metropolitan Museum of Art. Among the would-be purchasers the names of C. P. Huntington, W. M. Astor and a member of the Vanderbilt family are mentioned. One of Mr. Sedelmeyer's accust said vesterday that "The Death of Mozart" was about to fall into the hands of one of the bidders in this city when ex-Governor Alger appeared. He offered, according to the agent, nearly \$50,000, and it was immediately handed over to him. It was at once shipped to De'roit, arriving there on Wednesday, and will be presented to the Detroit Museum of Art, where it is said ex-Governor Alger had intended placing "Christ Before Pilate" if he had got it.

Mr. Fischof, Mr. Sedelmeyer's partner, starts for Paris to-day. He said yesterday that he should bring to this country in the fall Munkaesy's "Christ on Calvary," which is now on exhibition in Glasgow. it a few days ago. The picture arrived here some weeks

A MATTER FOR CAPT. WILLIAMS TO EXPLAIN. In answer to a letter from the Mayor May 10, addressed to the Excise Board, in which it is stated that, according to Captain Williams's report, the Cheisea Garden at No. 112 West Thirty-third-st, had an excise Boards, the Excise Board writes that "Captain Williams's report is no true. There is no excise license at this place, and never has been. The place has been running since it was opened without a license, by permission and consent of Captain Williams, it is presumed." There is an "alleged" license issued by Commissioners Haughton and Morris, while they were holding out against Mayor Grace's appointees, but the Excise Board cites a resolution of the Police Board of May 3, 1886, by which captains were instructed to recognize the Mayor's appointees as the lawful Excise Commissioners.

The Excise Board also writes to the Police Board, referring to Captain Williams's report, that "If Captain Williams made such a report, it is not true." In answer to a letter from the Mayor May 10, addressed

Dr. Mor. gan, of St. Thomas's Episcopal Church, and the body was taken to Averill Park formerly Sand Lake, for burial, Mr. Averill was a lawyer of considerable ability. He was born at Sand Lake, Rensselaer County, in 1854, went to Troy at the age of fifteen and entered Governor Seymour's law office. He came to this city is 1855 and became associated with Clark & Rapallo, where he remained until he was admitted to the bar. He was associated with Lawrence R. Jerome, General W. W. Averill, James Carson and Henry J. Raymond in the Averill Coal and Oil Company of West Virginia. He sold his interest in the company in 1867, when he returned to New-York and began the practice of law again. He was an member of the Society of Medical Jurispraience and State Medicine, of the Tummany Hall General Committee and the Sylvan Grove Lodge F. A. M.

\*\*Corporation Counsel Lacombe has replied to Controller Loew, who asked him for the Sinking Fund Commissioners what authority is vested in them and in the Dock Board to what authority is vested in them and in the Dook Board to catabilish lines of bulkhead and provide for the improvement of the water front from Eighty-sixth-at. East lilver, to the Third-ava, Hariem River, without making any resevation or provision for an exterior street. Mr. Lacombe cites several authorities and quotes the acts of the Legislature to prove that the plain intent of the various grants and acts is to vest in the city the ownership of the entire river front. He ad-vines that power does not exist to catablish a system of im-provements of the water front which shall not include an ex-terior public whart, street or place adjoining the water to the whole extent of the improvement.

BOTH MURDERERS SIGN CONFESSIONS.

EVIDENCE ENOUGH TO HANG TAYLOR AND CHAMBER.

The story of the murger of Mrs. Margaret Ernst in New-Haven, which Inspector Byrnes told to the reporters on Thursday evening, had been given to him by James F. Taylor, one of the arrested murderers, as indicated in The Third Daylor of the contession to the contession yesterday and added that he had told the truth about the murder of his own free will. Mr.

Byrnes read over the contession to the reporters, to saw how closely it tallied with the published story of the crime. He had previously read the contession to the murder, and Chamberiain had broken down completely. It was all up with him, he said, and he marder, and Chamberiain had broken down completely. It was all up with him, he said, and he marder as well contess too. He signed a statement to the effect that Taylor's story of the crime was true in severy respect, implicating nimedit as the person who actually killed Mrs. Ernst. The men had given actually killed Mrs. Ernst

lain made a damaging contession before he was arrested.

Inspector Byrnes thinks that Chamberlain found more money on the body of the murdered woman than Taylor knew of, and that it was concealed by the murderer. After returning to this city Chamberlain spent considerable money, and he had nearly \$90 in his possession when he was arrosted; yet he had no money when he went to New-Haven. May 13.—A special session of the Superior Court was held this atternoon. A Grand Jury was impanelled for the purpose of taking the testimony of the New-York witnesses in the Ernst murder case. The jury brought in indictments charging Chamberlain and Taylor with murder in the first degree. Chief Bellman started at once for Hartford to obtain requisition papers, and from there will go direct to Albany and present them to Governor Hill.

SOME EFFECTS OF THE INTERSTATE ACT. The business failures throughout the country in the ast week, as reported by G. G. Dun & Co., numbered 135

for the United States and 32 for canada, a total of significant is 2 has tweek and 176 in the corresponding week last year. Failures are decreasing in all parts of the country except perhaps Canada. In their weekly review of trade, Dun & Co. say among other things:

A great revolution in business is going on. With radically profile the property of the conflicting accounts of serious losses at some localities and in some branches, and of wonderful gains at other places, or sin other departments of trade and industry, the difficulty of reaching just conclusions respecting the general tendency is much enhanced. The interstate act is but one of several causes which contribute to produce this revolution in commerce; expansion in the volume, and change in the kind of currency is another not less important. Most unexpected results are produced; the interstate act clearly helps some who bitterly opposed it, and as clearly injures others who expected great benefits from its operation. Thus the river business of the West is expanding under the influence of the law, and the rallroads are at the same time getting larger earnings from the part of the traffic they remin, while into a few cities find, as Cinclinati does, that trade in many lines is greatly embarrassed. One general tendency is discoved by the urgent demands for supension or change of the law, especially from those who most favored its enactment. Serious diversion of trade from Western cities which have been chief centres of distribution is in progress, and a multi-tude of smaller towns are reaping the benefit.

THE CONTROLLER BOUND TO GET THE FACTS. Since publicity was given to the statement of Catharine Quinn that she had given the amount recovered by her in a Quinn that she had given the amount recovered by her in a suit for damages against the city to a Catholic priest who had failed to turn it over to the city at her request, Controller Loew has been trying to get at the facts in the case. Her counsel, Howard A. beerry, it was said, had written to Archbishop Corrigan, asking him to interfere in the case. Controller Loew wrote to the archbishop, asking him for information in order that he might prosecute the claim for one city. The archbishop pesterday wrote to the Controller that he knew nothing about the case. The first intimation he had of it was when he saw the case in the newspapers. The Controller will investigate the case until he gets all the facts in it.
